

Proposed Changes to WWDC Planning Projects Funding Approval and Consultant Selection Schedule

On August 3, 2017 the Wyoming Water Development Commission (WWDC) directed the Wyoming Water Development Office (WWDO) to begin implementation of a new WWDC Planning Project Funding Approval and Consultant Selection Schedule to go into effect during the 2018 calendar year. Project application deadlines under the proposed schedule would move to March 1st for Level I and II projects, and September 1st for Level III projects. A revision to the WWDC's Operating Criteria will be required to implement this new schedule for which a public comment period will be held. Current and proposed schedules follow. Questions should be addressed to the WWDO.

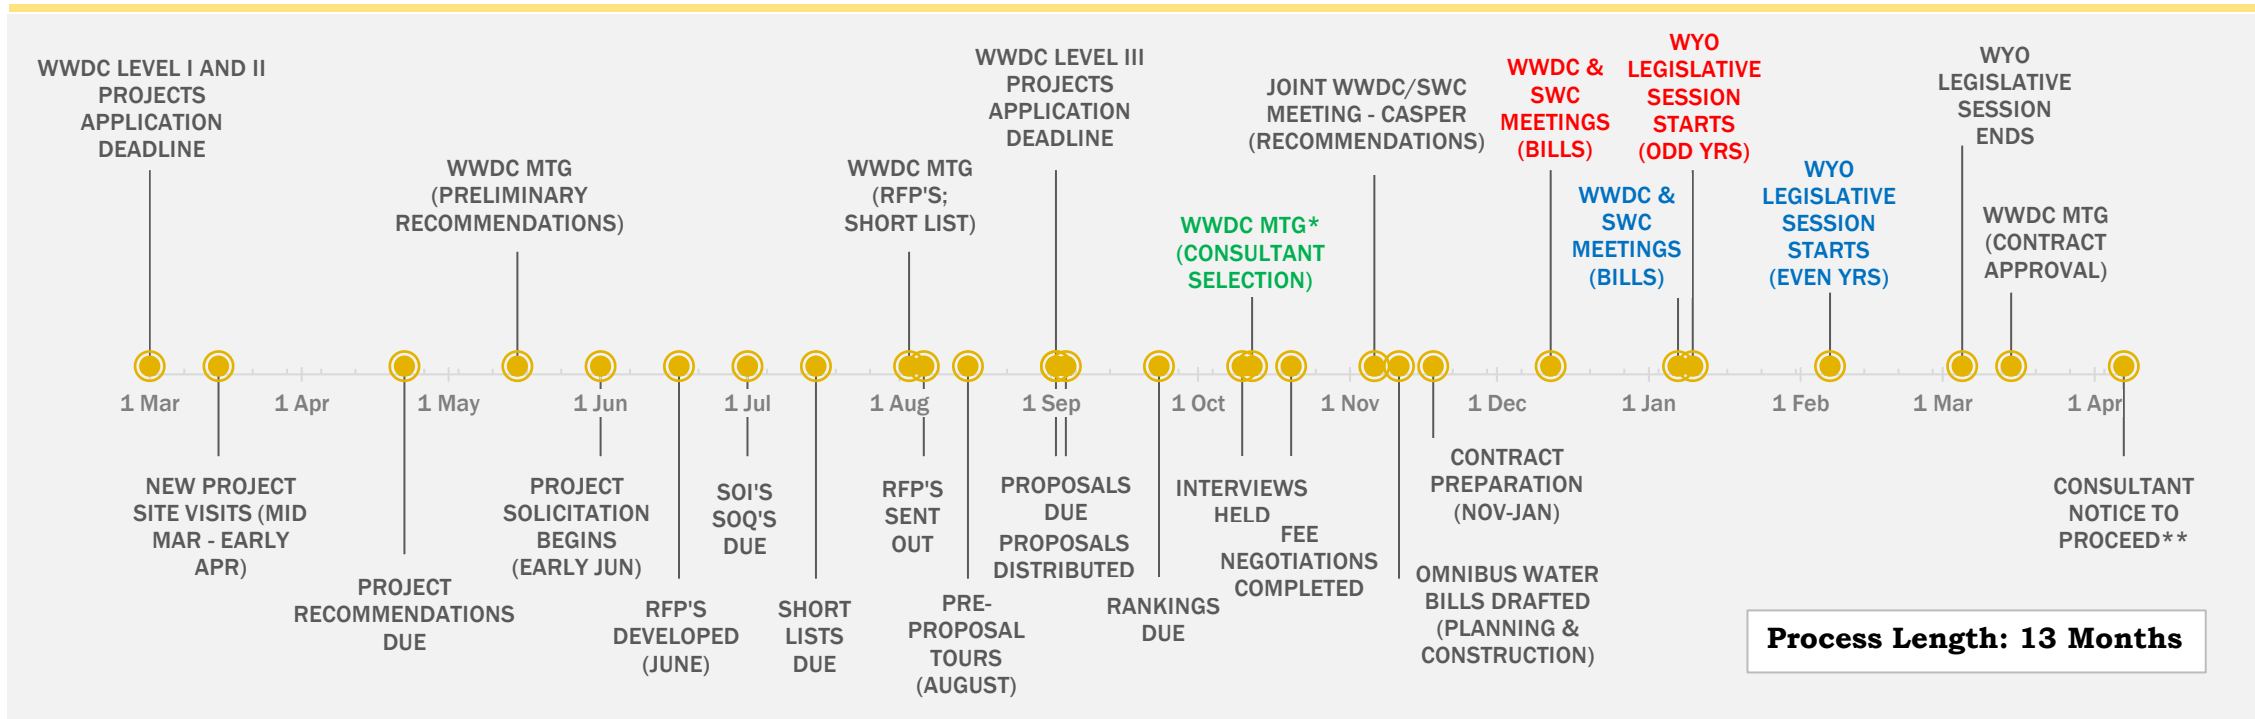

****See following pages for timelines of current and proposed schedules****

CURRENT WWDC PLANNING PROJECT FUNDING APPROVAL AND CONSULTANT SELECTION SCHEDULE

* Subject to Water Planning Bill having an effective date upon signature.

PROPOSED WWDC PLANNING PROJECT FUNDING APPROVAL AND CONSULTANT SELECTION SCHEDULE
